

# THE JEFFREY BOETTCHER FUND FOR FIELD STUDY IN BIOLOGY

OPEN TO MSU UNDERGRADUATES

MARINE & INVERTEBRATE BIOLOGY

This fund honors the memory of Jeffrey Boettcher, who attended Michigan State University and aspired to become a professional biologist. This fund is meant to connect students with the travel and field experiences he so much enjoyed — and the benefits that these experiences offer.

Students in any department or program are eligible; while preference is given to students pursuing off-campus field study in marine biology or invertebrate biology, other field study topics are eligible and encouraged.

**DEADLINE**  
**MARCH 15**

**AWARD AMOUNT**  
**\$300 - \$1,000**

**SUBMISSIONS**  
**Complete the application form:**

## Highlights

### Off-Campus Study

Assistance is available to engage in formal courses, independent study, or original research carried out, partly or fully, in field settings, including Kellogg Biological Station.
